FOREWORD	vii
TRANSLATORS' PREFACE	ix
PART ONE	
INTRODUCTION	1
CHAPTER 1: WARM DISEASE DEVELOPMENT AND HISTORY	7
I. Rudimentary Beginnings	8
II. The Developmental Stage	9
III. The Formative Stage	11
CHAPTER 2: WARM DISEASE CONCEPTS	15
I. Characteristics of Warm Diseases	15
A. Warm diseases are caused by externally contracted warm heat pathogens	15
B. Warm diseases are infectious, epidemic, seasonal, and geographic	16
C. Their developmental transformations have standard rhythms	17
D. Their clinical expressions have special characteristics	17
II. The Area and Classification of Warm Diseases	18
III. Warm Diseases and Cold Damage	19
IV. Warm Diseases and Warm Pestilence	20
CHAPTER 3: WARM DISEASE: DISEASE CAUSES AND DISEASE OUTBREAK	23
I. Disease Causes	23
A. Wind-heat pathogens	25
B. Summerheat-heat pathogens	25
C. Damp-heat pathogens	26
D. Dry-heat pathogens	27
II. Disease Outbreak	29
A. Factors influencing the outbreak of disease	29
B. Types of disease outbreaks	30
CHAPTER 4: DIFFERENTIATION OF WARM DISEASE PATTERNS	33
I. Defense-qì-construction-blood pattern identification	33
A. Defense-qì-construction-blood pathologies and patterns	34
B. The Depth and Shallowness of defense-qì-construction-blood patterns and their transformations	37
II. Triple Burner Pattern Differentiation	39
A. Triple burner pathologies and patterns	40
B. The transformations during the various steps of a triple burner disease process	42
CHAPTER 5: GENERAL METHODS OF DIAGNOSING WARM DISEASES	47
I. Tongue Diagnosis and Teeth Examination	48
A. Tongue diagnosis	48
B. Teeth examination	57
II. Rash and Miliaria Alba Diagnosis	58
A. Rash diagnosis	58

B. Miliaria alba diagnosis	63
III. Differentiation of Pulses	64
A. Floating, surging rapid, and slippery pulses	64
B. Soggy, moderate, string-like, and sunken pulses	65
IV. Differentiation of Other Commonly Seen Symptoms	66
A. Fever	67
B. Normal and abnormal sweating	69
C. Heady and body pains	70
D. Thirst	71
E. Vomiting	71
F. Pain and distention in the chest and abdomen	72
G. Abnormal elimination of urine and stools	73
H. Abnormal consciousness	74
I. Tetanic reversal	75
CHAPTER 6: WARM DISEASE TREATMENTS	79
I. The Exterior-Resolving Method	81
A. Coursing wind and discharging heat	81
B. Outthrusting the exterior and clearing summerheat-heat	81
C. Diffusing the exterior and transforming dampness	82
D. Coursing the exterior and moisturizing dryness	82
II. The Qi-Clearing Method	83
A. Mildly clearing and diffusing qi	83
B. Clearing qi with cold and acidity	83
C. Clearing heat and draining fire	83
III. The Harmonizing and Resolving Method	85
A. Clearing and discharging lesser yang	85
B. Scattering, dispersing, penetrating, and discharging	85
C. Membrane source opening and extending	86
IV. The Dampness-Dispelling Method	86
A. Diffusing qi and transforming dampness	87
B. Drying dampness and discharging heat	87
C. Scattering and disinhibiting damp pathogens	87
V. The Downward-Throughclearing Method	88
A. Throughclearing bowels and discharging heat	88
B. Coursing stagnation and throughclearing stools	89
C. Throughclearing stasis and breaking binds	89
VI. The Construction-Clearing Method	90
A. Clearing construction and discharging heat	91
B. Clearing both qi and construction	91
VII. The Blood-Cooling Method	92
A. Cooling and scattering blood	92
B. Clearing qi and blood with large [doses]	92
VIII. The Orifice-Opening Method	93
A. Clearing the heart and opening the orifices	93
B. Sweeping phlegm and opening the orifices	94
IX. The Wind-Extinguishing Method	95
A. Cooling the liver and extinguishing wind	95
B. Nourishing yin and extinguishing wind	95
X. The Yin-Nourishing Method	96
A. Nourishing the lungs and stomach	97
B. Increasing humor and moisturizing the intestines	97

C. Nourishing and supplementing kidney yīn	97
XI. The Desertion-Securing Method	98
A. Boosting qì and securing desertion	98
B. Returning yáng and stemming counterflow	99
PART TWO	
CHAPTER 7: WIND WARMTH	103
I. Disease Causes and Pathology	103
II. Main Points of Diagnosis	104
III. Pattern Identification and Treatment Determination	105
A. Disease pattern and treatment in pathogens attacking the lung defense	105
B. Disease patterns and treatments in heat entering the qì aspect	110
C. Disease patterns and treatments in heat trapped at the pericardium	123
D. Disease pattern and treatment in residual unresolved heat damaging the lung and stomach yīn	127
CHAPTER 8: SPRING WARMTH	129
I. Disease Causes and Pathology	129
II. Main Points of Diagnosis	130
III. Pattern Identification and Treatment Determination	131
A. Disease patterns and treatments during the initial stage	131
B. Disease patterns and treatments in binding of heat in the intestinal bowel	135
C. Disease patterns and treatments in heat in the construction-blood aspect	139
D. Disease pattern and treatment in exuberant wind-stirring heat	143
E. Disease patterns and treatments in heat scorching the true yīn	145
F. Disease pattern and treatment in lingering pathogens in the yīn aspect	150
CHAPTER 9: SUMMERHEAT WARMTH	153
I. Disease Causes and Pathology	153
II. Main Points of Diagnosis	155
III. Pattern Identification and Treatment Determination	156
A. Disease patterns and treatments in diseases that originate as summerheat	157
B. Disease patterns and treatments in summerheat warmth accompanied by dampness	171
C. Attachment: Encroachment of summerheat and summerheat foulness	176
CHAPTER 10: DAMP WARMTH	181
I. Disease Causes and Pathology	181
II. Main Points of Diagnosis	184
III. Pattern Identification and Treatment Determination	185
A. Disease patterns and treatments in dampness stronger than heat 1	86
B. Disease patterns and treatments in equally strong dampness and heat	193
C. The disease pattern and treatment in heat stronger than dampness	201
D. The disease pattern and treatment in lingering residual pathogens	202
E. Disease patterns and treatments in transmuted damp-warmth	203
CHAPTER 11: LATENT SUMMERHEAT	207
I. Disease Causes and Pathology	207
II. Main Points of Diagnosis	209
III. Pattern Identification and Treatment Determination	209
A. Disease patterns of both the exterior and interior and their treatments	210
B. Disease patterns and treatments in pathogens in the qì aspect	214

C. Disease patterns and treatments in pathogens in the construction-blood aspect	217
CHAPTER 12: AUTUMN DRYNESS	223
I. Disease Causes and Pathology	223
II. Main Points of Diagnosis	224
III. Pattern Identification and Treatment Determination	224
A. The disease pattern and treatment in lodgment of pathogens in the lung defense	226
B. Disease patterns and treatments in lodgment of pathogens in the qì aspect	227
CHAPTER 13: WARM TOXICITY	237
MASSIVE HEAD SCOURGE	238
I. Disease Causes and Pathology	238
II. Main Points of Diagnosis	239
III. Pattern Identification and Treatment Determination	239
PUTREFYING THROAT ERUPTIONS	242
I. Disease Causes and Pathology	242
II. Main Points of Diagnosis	243
III. Pattern Identification and Treatment Determination	243
A. Toxins invading the lung defense	244
B. Toxins obstructing the qì aspect	246
C. Toxins flaring in the qì and construction [blood] aspects	247
D. Remnant toxins injuring yīn	249
ENGLISH, CHINESE, AND PĪNYĪN GLOSSARY OF UNCOMMON CHINESE MEDICAL TERMS	251
INDEX	253
